biorasi™
CONFIDENT CLINICAL TRIALS

Let's Talk

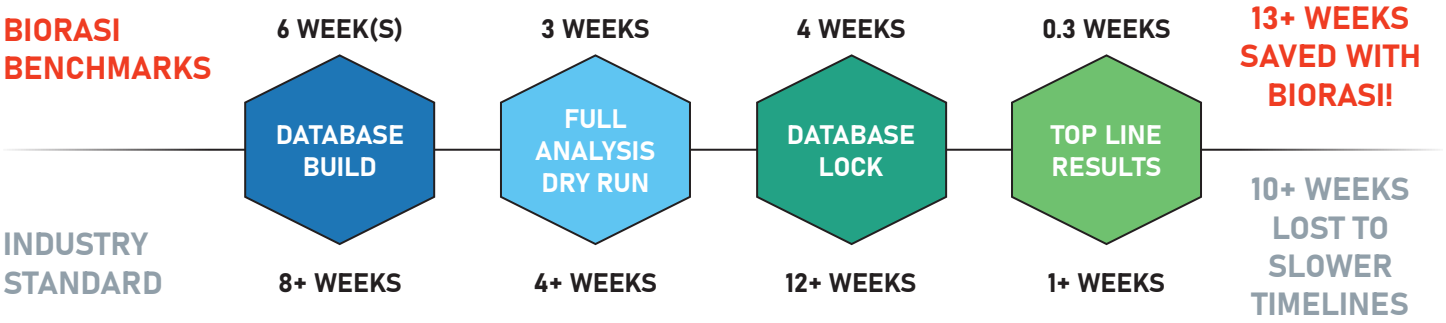

WHY SPEED MATTERS

Clinical trial delays can cost sponsors up to $800,000 in lost opportunity costs per day plus an estimated $40,000 a day in direct trial expenses.*

Biorasi's Data Sciences team is built to save time-without compromising quality.

From day one, we're already working toward topline results. Our experts build your database in under 6 weeks, reconcile data in real time, and confirm audit readiness from the start.

85 DAYS SAVED WITH BIORASI

WHAT SETS US APART

WE'RE EFFICIENT:
Accelerate your study timelines

Swift database builds and reduced cycle times drive faster decision making.

WE'RE QUALITY CONSCIOUS:
Secure regulatory confidence and data integrity

Submissions that meet CDISC/ CDASH compliance standards the first time, minimizing expensive delays.

WE'RE ACCESSIBLE:
Make informed decisions anytime, anywhere with Beeline

Study tracking and reporting in real time to respond proactively to potential challenges.

WE'RE FLEXIBLE:
Scale support to match your milestones and your bottom line

Strategic support that complements your study goals at any level.

WE'RE PROFICIENT:
Build study confidence with expert oversight

Data specialists that anticipate challenges, letting you focus on strategy instead of damage control.
